CHNEP GRANTS
Three types of grants are available to help you protect the natural environment. Public Outreach Grants (up to $3,000, applications due September 3) and Research and Restoration Partners Grants (up to $20,000 with 50% matching funds, proposals due October 31) are available once a year. Small "micro" grants of up to $250 for outreach projects are available year round.

These grants are open to anyone – individuals, community groups, volunteers, service organizations, businesses, government agencies, educational entities – but must occur within the CHNEP study area.

For more information, go to *www.CHNEP.org*.
