

2021 STATE LEGISLATIVE PRIORITIES

The Coastal & Heartland National Estuary Partnership, which includes 10 counties and 27 cities in Central and Southwest Florida, as well as state and federal govt. agencies, have the following collective state legislative priorities for 2021:

- Continue and expand annual funding for the Coastal & Heartland National Estuary Partnership, including recurrent dedicated funding.
- Create or strengthen nutrient and pollution reduction policies to reduce loads from wastewater, septic, agricultural runoff, reclaimed water, stormwater, fertilizer and internal “legacy loads”.
 - Support the Florida Department of Environmental Protection to update stormwater standards in Environmental Resource Permitting state-wide to require stormwater systems that maximize the capture and treatment of nitrogen and phosphorus.
- Expand funding for innovative technology pilot projects, including technologies to address harmful algae blooms – especially those that promote natural system solutions.
- Establish a statewide, long-term funding program through the Florida Department of Environmental Protection with sufficient funds for competitive, local cost-share projects for estuary restoration including:
 - Upgrading wastewater treatment to advanced wastewater treatment and increasing capacity
 - Septic to sewer conversion
 - Groundwater contamination remediation projects
 - Habitat restoration (ex. seagrass, oysters, living shorelines)
 - Stormwater retrofitting projects
 - Legacy load / muck removal remediation projects
 - Resiliency projects and planning
- Support increased funding of Florida Forever and Florida Rural and Family Lands programs.
- Support of local governments’ continued ability to enact more stringent environmental protection ordinances.

Uniting Central and Southwest Florida to protect water and wildlife.
